

Patchwork & Nine-Patch Afghan Patterns

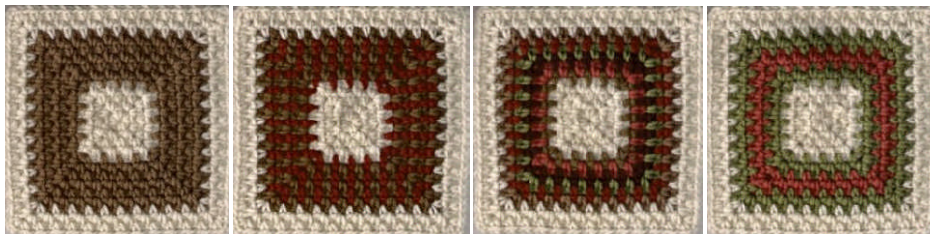

(These samples are lapghan size.)

Patchwork Squares

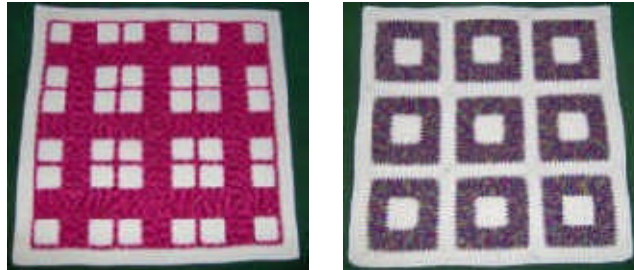

These five 7" squares can be mixed and matched to create a patchwork afghan. Since the same quick & easy stitch is used for all the squares, the resulting afghan has an overall consistency seldom found in patchwork afghans. These squares are great for exchanges and the size is easily adjusted by changing the number of rows.

Floating Squares

Use one or any combination of these four 7" squares to create an afghan in which the contrasting squares seem to float on the background. Or combine them with the patchwork squares to make a patchwork afghan. These too make good exchange squares.

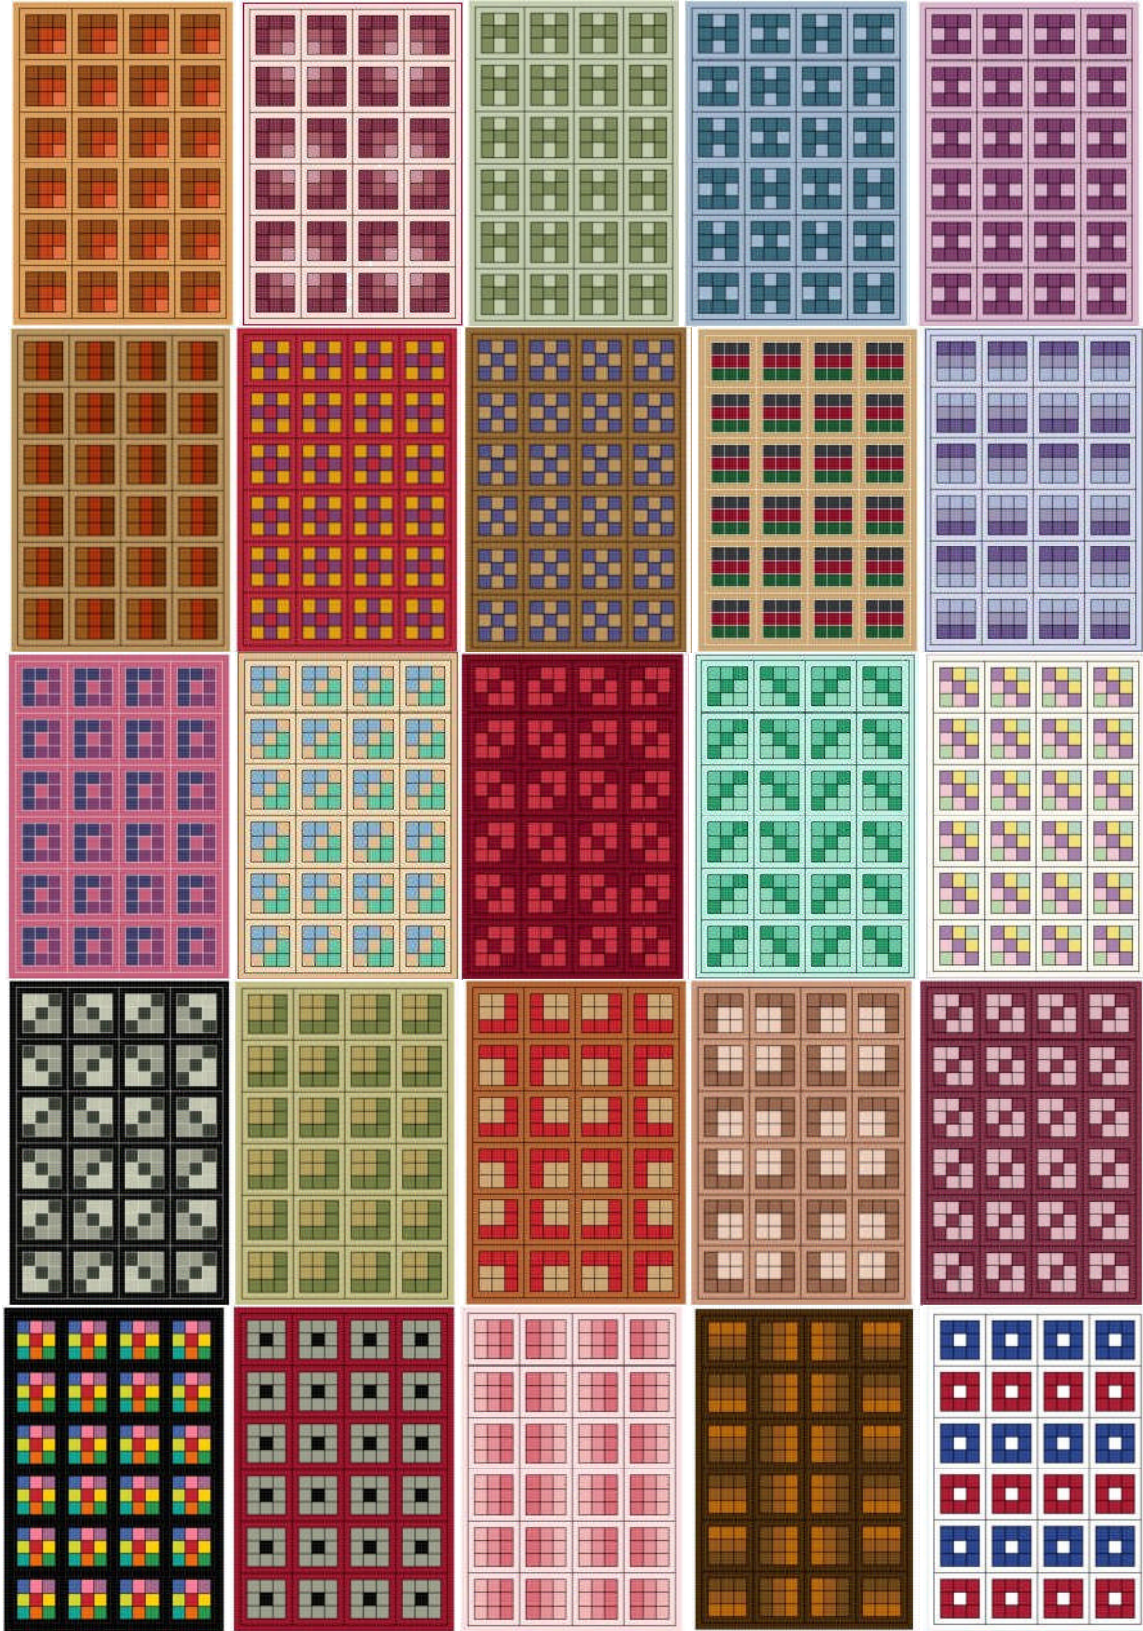

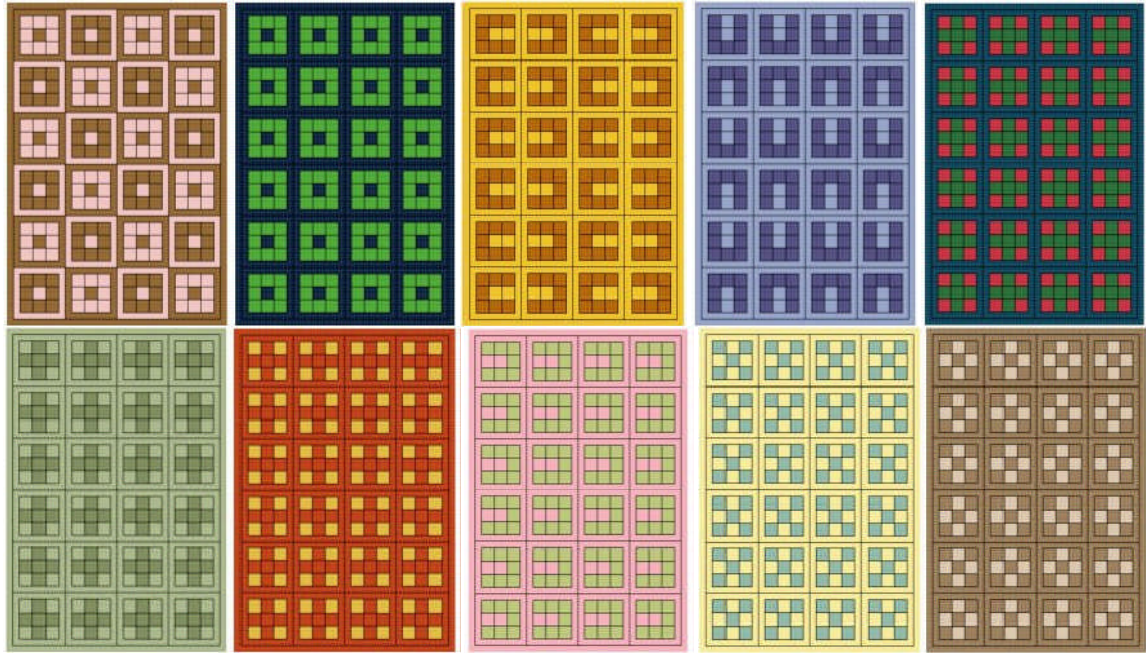

(These samples are lapghan size.)

Bordered Nine Patch Afghan Blocks

These blocks are comprised of nine crocheted squares sewn together and bordered to form a 12" block...the perfect size for pillow-gfans! Unbordered, the blocks are 10" square. Choose one of the 35 design layouts below (or design your own!) to complete your afghan.
